

Driver Terminal DMT2000/2

The driver terminal DMT2000/2 was specially developed for applications in vehicles. It is used to control various systems such as validators or on-board computers. The data terminal is characterized by the following properties:

- ▶ Robust aluminium housing
- ▶ high efficiency
- ▶ flexible interfaces
- ▶ small dimensions and low weight

Technical Data

- ▶ Processor ARM Cortex A9 (i.MX6 by NXP) 1 GHz
- ▶ OS Linux, Android
- ▶ Colour 7 Inch TFT-Touch-Display
Resolution 800 * 480 Pixel
- ▶ Loudspeaker AC97
- ▶ Memory
RAM Speicher up to 2 GB
eMMC 4GB up to 32 GB
2 MB SPI NOR Flash
- ▶ Interfaces Ethernet, RS232, USB
- ▶ Power 9 up to 32 Volt
- ▶ Dimensions 185 mm, 125 mm, 36 mm
- ▶ Weight 850 Gram
- ▶ Temperature -20° up to +70°C
- ▶ Aluminium case
- ▶ Water and Dust IP54
- ▶ Certification CE, RoHS
- ▶ E-Automotive (ECE/324 Add 9 Reg 10)
